**Votes:** 0

*Agile*

**Epic Link:** As a user I want to have a module called 'Admin'.

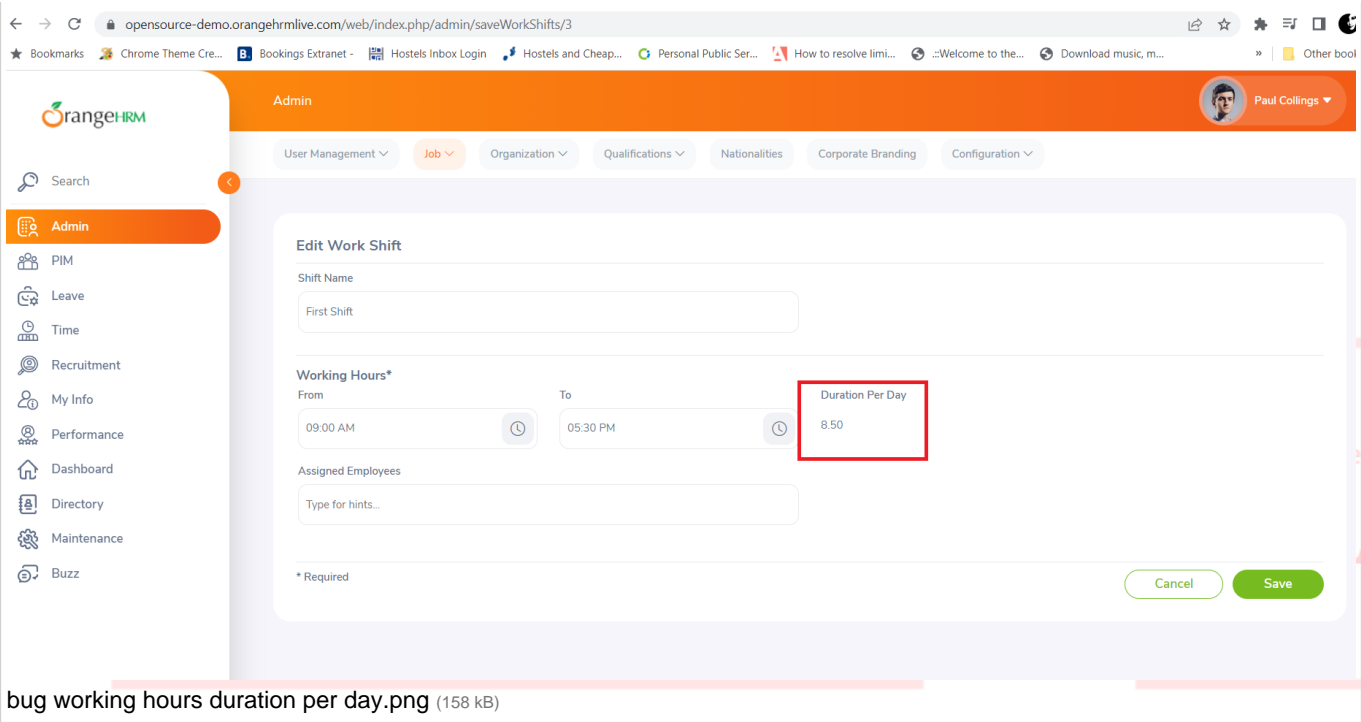

### Description

1. Navigate to 'Admin' Module.
2. Go to 'Job' section and click on the 'Work Shifts' subsection.
3. Go to 'Records Found' and click on the 'Edit' button next to the entry we want to edit.
4. Go to 'Working Hours' and edit the hours. 09:00 AM - 05:30 PM
5. Check that the Duration Per Day is correctly calculated.

Expected result: The Duration Per Day is correctly calculated.

Actual result: The Duration Per Day is not correctly calculated.

**Epic Link:** As a user I want to have a module called 'Admin'.

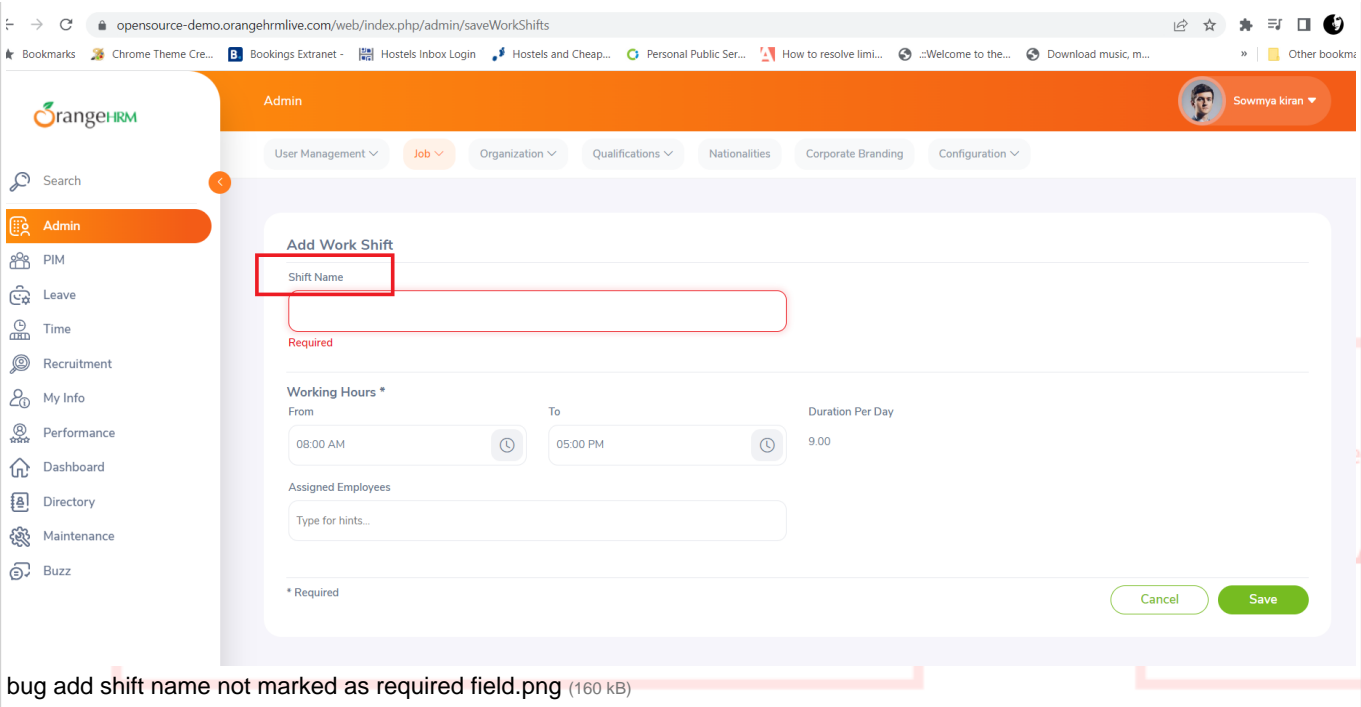

### Description

1. Navigate to 'Admin' Module.
2. Go to 'Job' section and click on the 'Pay Grades' subsection.
3. Go to 'Records Found' and click on the 'Edit' button.
4. Go to 'Currencies' and click on the 'Add' button.
5. From the 'Currency' dropdown select a valid value. Argentina Pesos
6. Fill in a valid value for 'Minimum salary' text box. 300
7. Fill in a valid value for 'Maximum salary' text box. 3000
8. Click on 'Save' button.
9. Go to 'Currencies' and click on the 'Add' button.
10. From the 'Currency' dropdown select a valid value. Romanian Leu
11. Fill in a valid value for 'Minimum salary' text box. 100
12. Fill in a valid value for 'Maximum salary' text box. 1000
13. Click on 'Save' button.

Expected result: A success message is displayed and the new currency is displayed under the pay grade's name.

Actual result: An error message is displayed, asking for a required value and the currency is not added.

## [MIHA-98] [User Management] A system user cannot be searched by disabled status.

Created: 27/Mar/23 12:28 AM - Updated: 27/Mar/23 10:10 AM

**Status:** Backlog  
**Project:** Proiect\_Mihaela  
**Parent:** [MIHA-10](#) 'Admin' will have multiple sections. (Epic)  
**Component/s:** None  
**Affects Version/s:** Version1 - AdminModule  
**Fix Version/s:** Version1 - AdminModule

**Type:** Bug  
**Reporter:** testaremanual25  
**Resolution:** Unresolved  
**Labels:** None  
**Original Estimate:** Not Specified  
**Remaining Estimate:** Not Specified  
**Time Spent:** Not Specified  
**Priority:** Medium  
**Assignee:** Unassigned  
**Votes:** 0

*Agile*

**Epic Link:** As a user I want to have a module called 'Admin'.

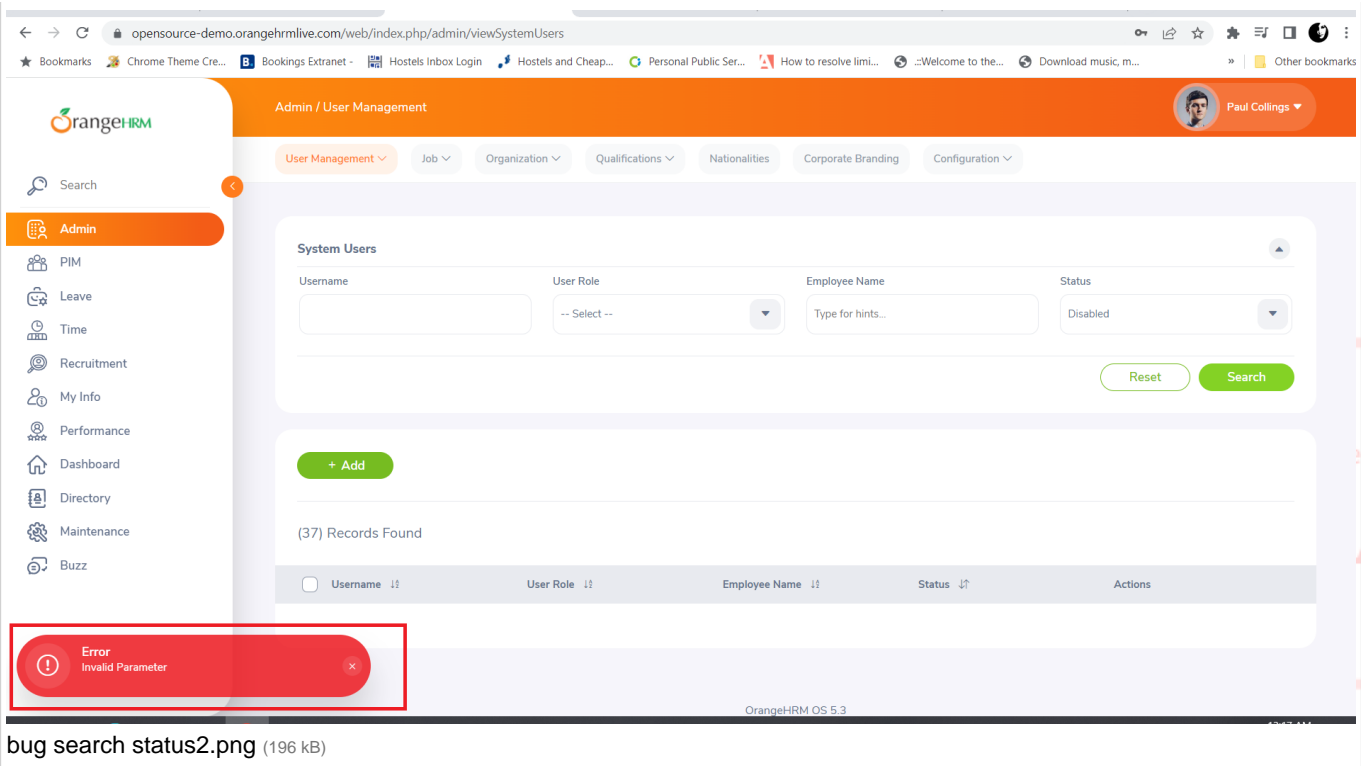

### Description

1. Navigate to 'Admin' Module.
2. Go to 'User Management' section and click on the 'Users' subsection.
3. From the 'Status' dropdown select a valid value. - Disabled
4. Click on 'Search' button.

Expected result: The system user is displayed in the table.

Actual result: An error message is displayed and the system user is not displayed in the table.

**Epic Link:** As a user I want to have a module called 'Admin'.

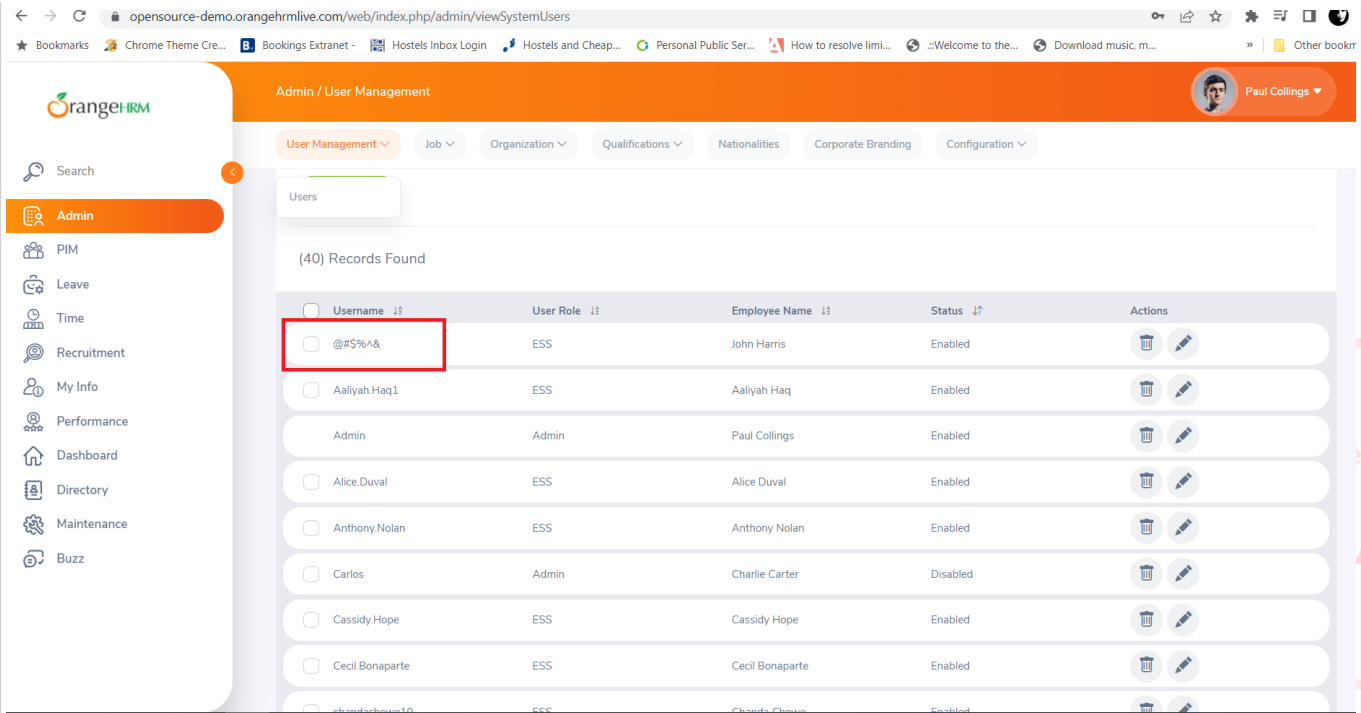

### Description

1. Navigate to 'Admin' Module.
2. Go to 'User Management' section and click on the 'Users' subsection.
3. Click on 'Add' button from 'System Users' section.
4. From the 'User Role' dropdown select a valid value. - ESS
5. Fill in a valid value for 'Employee Name' text box. - John Harris
6. From the 'Status' dropdown select a valid value. - Enabled
7. Fill in an invalid value for 'Username' text box. - @#\$%^&
8. Type in a valid password in the 'Password' text box. - Abc123456\$
9. Type in again the password in the 'Confirm Password' text box. - Abc123456\$
10. Click on 'Save' button.

Expected Result: An error message is displayed and the user is not added in the system user's table.

Actual Result: The system user is successfully created and displayed in the table.
